IN NORTH TOPEKA ON A STATE TOUR

Former Resident of North Side in Arctic Regions.

L. A. Luke Is Second Mate on Steamship Carnegie.

MAKING AN INVESTIGATION

Graduate of Topeka High School and State University.

J. B. Billard Has Drinking Cups for 100,000 People.

L. A. Luke, the North Topeka boy who is with the steamship Carnegie in the Arctic regions is getting along well and now is at Rey Kjavik, Iceland. Otis Cummings of 1420 Western avenue received a communication from him recently.

Mr. Luke, while a student at Kansas university last winter, was selected to make this trip to the Arctic regions at the expense of the government. His appointment was made through the Carnegie commission. He had not entirely completed his course at the university but was granted his leave just before leaving for the east to join the other members of the crew. He was selected as first mate on the steamship Carnegie. This steamship was given this name in honor of Andrew Carnegie, who has taken so much interest and spent a lot of money in this work.

The crew on the steamship Carnegie are making a scientific investigation. In the communication to Mr. Cummings, Mr. Luke says that he has just returned from a point at 80 degrees north latitude and spent about a month in the northern part of Norway.

Mr. Luke, before going to Kansas university, attended the Topeka high school and graduated three or four years ago. He lived in North Topeka a number of years and also attended the Topeka public schools. He is about 23 years old and is the son of Mr. and Mrs. Charles A. Luke of Emporia, who formerly lived in North Topeka. He left here February 8, on this trip. He started directly east from New York to Norway and then north into the Arctic regions.

The ship on which Mr. Luke is an officer is connected with the Carnegie Institution of Terrestrial research at Washington, D. C. It is with this work that the North Topeka boy is now connected.

Drinking Cups for 100,000.

J. B. Billard, independent candidate for governor, who lives in North Topeka, has adopted a novel campaign advertising scheme. Mr. Billard has purchased a large number of paper sanitary drinking cups which he distributed free at the Topeka state fair, and in fact at every fair in the state. Fairs are held in almost every county in the state and Mr. Billard arranged for the distribution of these cups at all these places.

These cups are not limited to the patrons of the various fairs but are distributed at all the large picnics and big celebrations of the various characters.

Mr. Billard bought 100,000 of these cups and expects to pass them to the voters of the state on or before the close of the present campaign.

Notes and Personal.
Sunday school services will be held in the Shore school house. These services will be held at 3 o'clock in the afternoon. Rev. J. E. Hicks, pastor of the Second Presbyterian church, will deliver a sermon beginning at 4 o'clock.

and walked toward the horse, which kicked him in the abdomen. The injured man was taken to Christ's hospital, where he was attended by Dr. Otto Klene and Dr. O. W. Clark. According to reports received today from the hospital Barner has a good chance of recovery.

HAVE YOU GOT IT?

A Bill Marked \$10 on One Side and \$20 on the Other.

Chicago, Sept. 13.—Somewhere in the United States is a twenty dollar bill that is a ten dollar bill on one side. The bill, which will be redeemed by the United States treasury at a legal value of \$20, is stamped \$20 on one side; turn it over and it is a ten dollar bill.

Officials of the local national bank by which the note was issued asserted today that the note was wrongly printed through carelessness of the government office of engraving and printing. It is a part of the Aldrich-Vreeland currency issue and is one of twine. Its mate has been impounded and is in possession of T. E. Leach of Chicago, secretary of the American Numismatic society. The misprint was divulged in a Milwaukee bank when a package of bills withdrawn by a depositor persisted in totaling \$20 when the teller counted it, \$20 when counted by the depositor. Three expert tellers worked an hour before the freak bill was discovered.

FATAL BELOIT ACCIDENT.

Young Lad Is Killed in Runaway Caused by Loss of Wheel.

Beloit, Sept. 13.—Max Reiter, a 12-year-old lad of near here, was the victim of a very sad accident when a runaway team dragged him more than 30 yards, crushing his skull and inflicting other injuries of which he died a few hours later. The unfortunate lad was riding on a wheat wagon with his uncle when the accident happened. In some way the nut came off one of the axles and the wheel also. When the wheel left the axle the sudden dropping of the wagon frightened the team and caused it to run away. Young Reiter was thrown under the horses and became entangled in the harness.

LAWRENCE IS FOURTH.

Town Is Ninth in Population but Fourth in Postal Receipts.

Lawrence, Sept. 13.—According to the official report of the state board of agriculture, Lawrence has 13,239 population, ranking ninth in the state. The towns outranking it are Kansas City, Wichita, Topeka, Leavenworth, Hutchinson, Pittsburg, Atchison and Coffeyville. But while Lawrence is ninth in population it is fourth in postal receipts. This shows that Lawrence is a busier town than the ones that immediately outrank it.

GIVES ADVICE TO CO-EDS.

Mrs. Atkinson Tells K. U. Students to Get Married and Be Happy.

Lawrence, Kan., Sept. 13.—So happy, so loyal and get married, was the advice given to the students of the University of Kansas Friday by Mrs. Fannie Cooper Atkinson, of Parsons, who made the opening address of the school year. More than 2,000 students heard the talk, which was of the heart to heart nature and contained nothing sensational.

IN AUSTRALIAN PORTS

Many German Vessels Held Forcefully as War Prizes.

Sydney, Australia, Sept. 13.—Australia prevented the escape of numerous German owned vessels which were caught in Australian ports. There was a wild scamper on the part of nearly a score of German boats to get away when war was declared. While the North German Lloyd steamer Seydlitz and three other German vessels, the Luise, the Linden and the Uhl, succeeded in their flight, upwards of a dozen German owned steam and sailing vessels are held as prizes of war. They include the North German Lloyd steamers Prinz Sigmund from Kobe, which is held at Brisbane, and the freighter Pfalz at Melbourne, and several vessels belonging to the German-Australian Steamship company at Newcastle. The Pfalz, which was the only German ship to be captured in the Pacific.

KICKED BY BRONCO.

Visitor to State Fair Injured While Accepting \$5 Offer.

As a result of being kicked in the abdomen by a vicious horse Friday night at the Luken's wild animal show at the State Fair grounds, John Barner of Richey, Mo., is at Christ's hospital in a serious condition. When the ringmaster announced that \$5 would be given to the person
